

RESORT OVERVIEW

RADICAL!! In a word, that's the Loon Mountain experience. Sure, we have a super-duper terrain park (several, actually) but you can also have some serious fun between park runs on the mountain's natural features that seem to be everywhere! Also important is great snow, and we're known for that, too. Loon promises to bring you the best snow possible and our Unconditional Guarantee backs it up. Bottom line? If you're not satisfied with the day's snow, you can come back and visit Loon another day this season - no charge. Loon Mountain is a quick and easy two-hour cruise from Boston, located three miles off of I-93.

TERRAIN PARK DESCRIPTION

YOU WON'T ride a better park in the East! From the Burton Progression Park, where new riders learn how to jump and jib, to our signature Loon Mountain Park, which packs more flow than Wu-tang, Loon offers a top-notch terrain park experience for everyone - and not just one, but 6 parks, 2 pipes, and over 50 jibs to get tricky on. Loon's park crew works around the clock to keep things plush. What's new? Look for a dozen new jibs, 18' Zaugg, and the debut of the all-new Reload Park!
